

## Be a Map Maker

It's important to be able to find your way around when you visit a state park. Draw a map of where you are (that way, the grown-ups who are with you won't get lost). Be sure to include any buildings, or anything that will help you remember how to get back to where you are.

Things to include on your map:

- Ranger Station
- Car/Campsite
- Bathrooms
- Other Buildings
- Roads and Trails
- Compass Directions
